Warranty Policy

Before returning faulty goods to CTA, the initial response should be to consult the product manufacturers specific instructions, and to make sure that sufficient steps have been taken to follow these instructions as detailed by the item manufacturer. Most manufacturers also supply a trouble-shooting guide to assist with any problems, so steps should be taken to make sure that these are checked off.

If no solution can be found, contact CTA on **02 9729 7700** or email: **info@ctaaustralia.com.au** regarding the problem with the product, as this can sometimes be resolved via correspondence. If no resolution can be found the product(s) will need to return to CTA for assessment and testing.

If a fault is deemed to be warrantable and the problem with the good(s) is minor, the supplier can choose between providing a repair or offering the consumer a replacement or a credit. Repairs will be carried out in reasonable time. If the fault is major, a replacement or credit will be offered.

If the item(s) are found not to be defective from manufacturing or component defect, then they will be returned to the customer with the cost of freight charged to the customer's account.
